

Principal's Message

Assalamu-Alaikum Warahmatullahi Wabarakatuh

Term 4 started smoothly, Alhamdulillah. The Year 12 ATAR students continued to attend school until Friday, 20th October 2017. On behalf of Langford Islamic College, we wish all our Year 12 students the very best in their upcoming WACE exams and their future endeavours, Insha-Allah.

There are many exciting events this term including LIC's Got Talent competition as well as Sports Carnivals, Annual Quran Competition, Graduation Ceremonies, Award Presentations, School Fete and of course, Semester Two Exams for Years 7-11.

I would like to remind parents to drop off and pick up their children from Norbury Way, especially in the afternoon. In addition, please check that your children are in full school uniform before dropping them off. High School students must be in their school uniform or their sports uniform and shoes must be black.

It is important to respect our neighbour's privacy and property. Please keep within the speed limit in Norbury Way, Osten Drive and Jamaica crossing. Parents are reminded that the car park can be a dangerous place and children must be supervised at all times as cars are reversing. It is the parents' responsibility to supervise their children in the car park. Talking in the car park should be kept to a minimum with the focus being on the children.

Parents are also reminded to kindly report to the school reception during instruction hours (between 8.30am-3.30pm) and not go directly to the classroom or into the College grounds. Please sit in the reception or just outside the office rather than walk around the school or go to classrooms. Your cooperation in this matter will enable the College to ensure greater safety for our students and staff.

I look forward to a very busy and exciting term to finish a wonderful year.

Dr Popie Hossain Rhaman

Upcoming Events

- **WACE Exams**
(November 2017)
- **Y8 Vaccination**
(8 November 2017)
- **Annual Quran Competition**
(9 November 2017)
- **Y11 Semester Two Exams**
(Week 5-Week 6)

In This Issue

- **Exciting Educational Experience at Hyogo Cultural Centre**
- **The Junior Soccer Players**
- **Learning Goals in Y5 Blue**
- **Meningococcal Vaccination for students aged 15 to 19**

Exciting Educational Experience

Our Year 8 students attended exciting educational and inspirational excursions over the past three terms.

In Term 1, Year 8 students went on an outdoor-learning trip to Kings Park. They spent the warm early morning relaxing at the Synergy Parkland and learning Science in the recreational ground. The beautiful park has a pond, a playground, a grass lawn and a canteen that caters for everyone. It was an interesting experience to have lessons in an outdoor environment instead of the usual classroom.

In Term 2, students visited Hyogo Prefectural Government Cultural Centre on Humanities and Social Sciences (HASS) excursion. Hyogo is a Japanese Cultural Centre and the excursion was an educational one as students had been learning about Japan in their History lessons. At the Centre, students witnessed a tea ceremony, saw a model of a traditional Japanese home and were shown a Samurai helmet as well as the traditional robe worn by Japanese women. They were also

By: Mr M Conteh

shown the carp flags that are used in celebrations. The students did map activities, origami and calligraphy. After visiting the Japanese Centre, students were taken to Waterford Plaza for lunch.

In Term 3, Year 8 students went on an exciting excursion to Lazer Blaze in Malaga, where they played two games of laser tag. They were suited-up in electronic armour and were given laser guns and sent into an arena in where they were set to play. They found the games very entertaining. Afterwards, students were taken to Westfield Carousel to spend the afternoon and get some lunch.

All in all, the excursions were very eventful, motivational and thoroughly enjoyed by all students.

The Junior Soccer Players

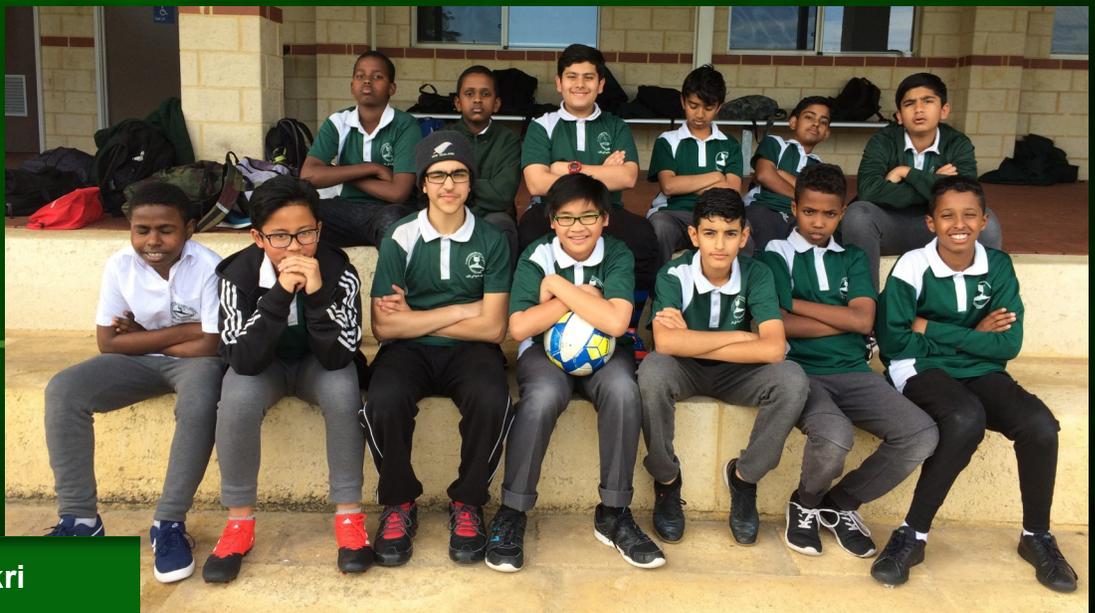

The twin objectives of this year's soccer program were to develop the junior players aged 13-14 year old's fundamental footballing skills and enhance their teamwork. The experiences gained when playing against older opponents benefited them and made these youngsters even more determined to be better players.

During the interschool soccer junior tournament, we were up against neighbouring soccer powerhouses such as AIC Kewdale, Wesley College, Canning Community College and Lynwood SHS B

team, whom we beat 3-0 via a walk-over.

We hope that next year will be a fruitful one for us, Insha-Allah.

Learning Goals in Year 5 Blue

I would like to commend all of my Year 5 Blue students for reaching their learning goals and always trying their personal best throughout the year. It has been a very busy time and my students participated in numerous projects and activities in the class throughout the year such as Harmony day, Ramadan Assembly, Eid Celebrations, Book Week, Science Week, Mothers and Fathers Day crafts, drama classes to name a few.

In the last week of the Term 3, students in both Primary and High School celebrated an exciting book week! Everyone came dressed in amazing costumes (of their favorite book characters) and a special assembly parade was held. Students paraded class by class across the stage to much applause and appreciation by the audience. Students absolutely loved seeing their teachers dressed up as well and it seemed that many of the characters that we have grown to love and cherish had stepped out of their books and into our assembly area. Year 5 Blue had a lot of impressive Harry Potters walking around! Congratulations to all students for their creative and colorful costuming and many thanks to all the families who assisted them. I look forward to more wonderful learning opportunities and special events for my students in Term 4.

Beaming smiles receiving their excellent ICAS results! I am so proud of your impressive grades!

By: Mrs A Arif

We enjoyed celebrating our differences and sharing our similarities on Harmony Day.

Look at all the budding artists we have who took great pride in their work!

The Science Week project allowed students to conscientiously work and use their Mathematical skills measuring the meteorite craters in the sand.

The Eid celebration gave us the best happy memories in Year 5!

Great hands-on constructing experience while preparing for the annual Ramadan display.

Government of **Western Australia**
Department of Health

Meningococcal vaccination

A **FREE** meningococcal vaccine is available for 15 to 19 year olds in 2017.

Meningococcal can be life-threatening

See your GP or immunisation provider.

Department of
Health

MENINGOCOCCAL VACCINATION

To Young People aged 15 to 19

Meningococcal is a life threatening disease caused by bacterial infection of the blood.

It is easily spread.

Although rare, there has recently been an increase in cases in Western Australia.

Teenagers are at highest risk of carrying and spreading the disease.

This year, a free vaccination program is available to young people aged 15 to 19.

Have you had your meningococcal vaccine?

Get protected. Book the vaccine at your GP today and learn more about the Meningococcal vaccine.

Safer School Parking

Where you park matters

Walk together, bike together or car pool

Try arriving a bit earlier or later to avoid peak times

Park a short distance from school and walk the rest of the way
